### SUPT. BYRNES CUTS LOOSE.

He Intends to Euforce All Laws Regardless of Existing Rules.

#### SAYS HE'LL WAIT NO LONGER

The Commissioners Given Ample Time to Act Upon His Report.

MORE SUNDAY SALOONS.

Excise Evidence Will Be Gathered by Policemen in Citizens' Dress.

Supt. Byrnes has thrown down the gauntlet to the Police Commissioners and declared open war.

of any rules laid down by the Police Board, and will gather evidence against saloon-keepers who habitually violate Excise laws. He has, he declares, n nampered long enough by the rule led governs the collecting of evidence such cases.

which governs the collecting of evidence in such cases.

In an interview to-day Supt. Byrnes made the following statement:

"I propose to cut loose from everything that has heretofore prevented me from exercising what I have considered to be my pain duty in the enforcement of the Excise aws.

"The Police Commissioners, bd a resolution which I mentioned in my recent report to the Board, setting forth the reasons for the failure of the Police Department to enforce a proper respect for the Excise law, hampered the Police Department by forbidding police officers from obtaining evidence against sabon-keepers while in citizens clothes.

"I have, I think, waited a reasonable length of time for the Board to act upon my report, and now I have determined to exercise my own judgment, particularly in the matter of excise violations."

Mr. Byrnes was most emphatic in his statements.

He would now, he said, get evidence

Ar. Byrnes was most emphate in his statements.

He would now, he said, get evidence in any way he could, regardless of the rules prescribed by the Police Board.

If it is necessary for a policeman to wear plain clothes to get evidence, plain clothes will be worn.

The Superintendent said that he had aiready begun the war upon the excise violators.

iolators.

Asked if he proposed to enforce more sciency in the Excise law with regard to the Sunday traffic, the Superintendent

the Sunday traffic, the Superintendent said:

"We will certainly do the very best we can. If an officer of this Department finds a saloon open and doing business on Sunday he is liable to dismissal if he fails to report the fact to the Captain. I don't think that any policeman will hereafter take any such chance."

When Mr. Byrnes's defi was made known about Police Hendouarters everybusy held his breath, it was like the bush which precedes a Storm.

Inch there was a windparted interrogations as to what the outcome would be. Some thought the Superintendent's action was insubordination of the most fagrant character, and that there could

lagrant character, and that there could be no other result than that he would be disciplined for this open definince of his superiors.

s superiors.
Commissioner Kerwin, when asked if were probable that the Superintendent ight be called upon to answer to a large of insubordination, said:
"It appears that he has violated a rule ade by the Board for the government police officers in obtaining evidence excise cases. I am, however, with Superintendent, and will stand being him in the most vigorous enforcement of the law that he can reasonably siggest.

suggest.

"Of course, the Superintendent is mility of an act of insubordination in issuing orders such as he is said to have sued to-day. It will raise an issue in he Board, but I do not fear that the uperintendent will be very severely displined for this overt act."

Commissioner Kerwin intimated that is sympathized with the position taken by Supt. Byrnes, and that he would supert him in his fight against any memby Supt. Byrnes, and that he would support him in his fight against any members of the Board who might attempt to prevent him from doing his duty. Commissioner Murray refused to state what he thought the probable action of the Board would be. It is claimed that he also was in sympathy with the Superintendent, but he refused to commit himself. He said he did not know that the order of the Superintendent was contrary to any rule or resolution of the Department, but if it was he was sorry for it.

It is not unlikely that Supt. Byrnes's

was contrary to any rule or resolution of the Department, but if it was he was sorry for it.

It is not unlikely that Supt. Byrnes's action is the result of the warning uttered by Dr. Parkhurst at the meeting of the City Vigilance League on Monday night. It was then that the reversend reformer made use of the following words:

"The two vessels nated as outside the significant of the libboom of the unknown schooner was left on the Welleda's deck. ords:
"If Mr. Byrnes would step squarely to
e front and say, "I am going to carry front and say, "I am going to carry the laws whose execution lies upon by virtue of my position, and if the

me by virtue of my position, and it the Police Commissioners get in my way I am going to let the public know it in a way they cannot misunderstand'—if Mr. Byrnes would come to the front and my that, and say it in a way that would make us sure he meant to do it, the response by the community would be bomething thrilling."

Then Dr. Parkhurst made the follow-like slymideant utterance:

Then Dr. Parkhurst made the significant utterance:

"But I want to say, too, that if he does not do that pretty soon he will sot have an opportunity to do it."

Following so closely upon this statement from Dr. Parkhurst it would seem that his open defiance of the Police

his open defiance of the Police missioners is something more than noidence. POLICE COURTS CROWDED.
